- 5.3.1 The Agency shall not be responsible if the Contractor infringes the laws or statutes of its country or of any other country whatsoever.
- 5.3.2 In the event of a reasonable suspicion of infringement of any patent rights and other Intellectual Property Rights of a Third Party, the Work being performed under this Contract shall be stopped immediately. Assessment of the suspicion shall be performed by the Contractor and, if confirmed, both Parties shall agree on a new approach to achieve the objectives of this Contract, either by obtaining the applicable licence(s) from the Third Party by the Contractor and/or by signing a Contract Change Notice (CCN) agreed upon between both Parties, in order to avoid the infringement. The purpose of the CCN shall be either to (i) restart the Work, if plausible, due under the changed circumstances; or (ii) terminate the Contract, in accordance with Article 5.7.4 hereunder, if the infringement cannot be avoided.

Notwithstanding the above, the Contractor shall indemnify the Agency from and against all claims, proceedings, damages, costs and expenses arising from infringement or alleged infringement of any patent rights and other Intellectual Property Rights of a Third Party with respect to the Work under this Contract. This obligation does not extend to infringements resulting from the use of documents, patterns, drawings or items supplied by the Agency or from a modification or combination of the deliverables due hereunder made by the Agency after their acceptance.

- 5.4.2 Except in case of gross negligence and wilful misconduct, the Parties shall not be liable towards each other for consequential damages sustained by the Parties, arising from and during the execution of the Contract. For the sake of clarity and as an example, consequential damages include, but are not limited to: loss of contract, income or revenue; loss of profit or interests; loss of financing; loss of customer; loss of availability and use of facilities; loss of availability and use of employees’ productivity or loss of services of such persons; loss of opportunity; loss of rental expenses.

5.7 Agency's Rights in Case of Contractor's Under-Performance

- 5.7.1 Should any of the results of the Work fail to meet the agreed requirements and/or specifications, the Agency reserves the right to reject such results and require their resubmission following an iteration of the relevant Work by the Contractor at no additional charge.
- 5.7.2 Should any of the results of the Work fail to meet any of the agreed requirements and/or specifications to such an extent as to seriously jeopardise the performance of this Contract and/or to defeat its objectives, the Agency reserves the right to terminate this Contract by giving written notice by registered mail.
- 5.7.3 Should the Contractor fail to obtain an export authorisation from the competent national authority, the Agency shall have the right to terminate this Contract without further notice.
- 5.7.4 Termination of this Contract as specified above shall entail no compensation being due to the Contractor other than the amounts corresponding to the milestone payments already made hereunder at the time of serving the termination notice. Any amounts corresponding to Advance Payments not entirely offset hereunder shall remain payable to the Agency.

5.8 Termination without fault of the Contractor

- 5.8.1 The Agency shall have the right at any time to terminate this Contract either wholly or in part by giving written notice by registered mail. In the case of termination of a Contract by the Agency without fault of the Contractor, the Contractor shall, on receipt of the Agency's instructions, forthwith take the necessary steps to implement them. The Parties shall use their best efforts to mitigate the consequences of the termination. The period to be allowed to implement them shall be agreed between the Parties but shall not exceed three (3) months.
- 5.8.2 Subject to the Contractor conforming with the instructions referred in Article 5.8.1, the Agency shall take over from the Contractor at a fair and reasonable price all finished parts not yet delivered to the Agency, all unused and undamaged material, bought-out components and items in the course of manufacture in the possession of the Contractor and properly obtained by or supplied to the Contractor for the performance of the Contract, except such materials, bought-out components and items in the course of manufacture as the Contractor shall, with the agreement of the Agency, elect to retain.
- 5.8.3
 - a) The Agency shall indemnify the Contractor against such part of any loss of profit as is attributable to the termination of the Contract and against any damage resulting from the termination of the Contract, in particular against any commitments, liabilities or expenditure which are reasonably and properly chargeable by the Contractor and are related to the Contract, in so far as the said commitments, liabilities or expenditure would otherwise, subject to the conditions stated in Article 5.8.1, represent a loss by the Contractor by reason of the termination of the Contract.
 - b) The amount of compensation payable under Article 5.8.3a) shall be fixed on the basis of evidence produced by the Contractor and accepted by the Agency. It shall take account of the proportion of the Contract completed and shall be consistent with the provisions of Article 5.8.4

5.8.4 The Agency shall in no circumstances be liable to pay any sum which, when added to the other sums paid, due or becoming due to the Contractor under the Contract, exceeds the total price for the Work set forth in the Contract.

5.9 Changes to this Contract

5.9.1 The Agency reserves the right at any time to request a change to the requirements covered by this Contract. The Agency may also accept changes proposed by the Contractor. The requesting Party shall communicate all change requests to the other Party in writing through the Parties' Representatives indicated in Article 5.1 above.

5.9.2 The cost impact relative to any change resulting from a request, by the Agency, to modify the requirements covered by this Contract shall be borne by the Agency. The Contractor shall be responsible for the consequences and shall bear the cost of any other change.

5.9.3 When responding to a change request issued by the Agency or as a means to propose changes to the Agency, the Contractor shall submit a committing change proposal including a detailed quotation of the effects of the change on the contractual Work, price, schedule, deliverable items and any other contractual terms and conditions.

5.9.4 Upon evaluation and acceptance by the Agency of a change proposal, any amendment to this Contract shall be introduced in the form of a Contract Change Notice (CCN) according to the CCN form attached in **APPENDIX 2**. In case of rejection, the Agency shall inform the Contractor accordingly, together with the reasons for the rejection.

ARTICLE 6. INTELLECTUAL PROPERTY RIGHTS

6.1 Information to be provided by the Contractor – Protection of information.

6.1.1 Information, data, reports and results arising from Work performed under this Contract shall be delivered to the Agency. The Agency shall have the right to make such information, data, reports and results available to the Participating States and any Persons and Bodies under their jurisdiction, to use on the terms set forth in the following clauses.

6.1.2 For the purpose of this Contract, “Proprietary Sensitive Information” shall mean information corresponding to business related information (e.g., business plans) and/or Intellectual Property Rights vesting in an entity, the uncontrolled dissemination of which is likely to impair the entity’s long-term ability to use and exploit the aforesaid and/or to maintain a competitive advantage.

The Contractor shall not mark any (electronic) documentation as Proprietary Sensitive Information, unless agreed in advance with the Agency in writing. Any request from the Contractor shall be submitted in writing and accompanied by an appropriate justification.

6.1.3 Neither Party shall disclose any documentation obtained from the other Party, and which both Parties recognise as being Proprietary Sensitive Information without the other Party’s previous written authorisation. Without prejudice to the foregoing and limited to the purpose and scope of this Contract, both Parties may circulate such documentation to their employees or collaborators that require the said documentation for the sole purpose of complying with, or inspecting the progress of, this Contract.

6.1.4 The obligations provided in Articles 6.1.2 and 6.1.3 shall not apply to (electronic) documentation which:

- at the time of circulation has already entered in public domain or which after circulation enter in public domain other than through a breach of the Contract;
- at the time of circulation is already known by the receiving Party and is not hindered by any obligation not to circulate;
- is later acquired by the receiving Party from another source and is not hindered by any obligation not to circulate; or
- is required to be circulated by law or order of a court of competent jurisdiction.

6.2 Ownership and Use of Intellectual Property Rights

6.2.1 Ownership of Intellectual Property Rights

The Contractor shall own all Intellectual Property Rights and have the right to apply for, and to own, any Registered Intellectual Property Rights arising from Work performed under this Contract. The Contractor shall as soon as possible report to the Agency any results arising from such a Work which may in its opinion be protected as Registered Intellectual Property Rights and state whether it intends to apply for such protection. At the Contractor’s specific request in order to allow for filing of patent applications, the Agency shall not disclose any relevant information and results for a period of twelve (12) months from the date it was reported to the Agency.

The Contractor shall subsequently inform the Agency of any application to register such results arising from Work performed under this Contract and, within two (2) months of the date of filing, provide the Agency with all details on that application. The Agency shall have an irrevocable right to use the information used in that application, for its own requirements on the terms set out in Article 6.2.2 below but, unless agreed otherwise with the Contractor, the Agency shall not disclose such information until publication of the registration application.

6.2.2 Use of Intellectual Property Rights

All Intellectual Property Rights arising from Work performed under the Contract shall be available to:

- a) the Agency, Participating States and Persons and Bodies, to use on a free of charge, worldwide licence, with the right to disseminate and/or to grant sub-licences, for the Agency's Own Requirements.

For the avoidance of doubt, the term "use" for the purposes of software and/or hardware (design) shall include, but not be limited to, use to operate, integrate, validate, maintain, modify and upgrade items developed under the Contract.

In view of the objectives of this activity, the Agency explicitly reserves the right to widely disseminate any output of the activity, partial or otherwise, both during the execution of this Contract or after its end, without any restriction.

- b) Participating States as well as any Persons and Bodies under their jurisdiction, to use on "favourable conditions" (i.e. more favourable for the purchaser than market conditions but still allowing reasonable profit for the seller) for the Participating States' Own Public Requirements.
- c) Academic and research institutions within the Participating States to use on a free licence without the right to grant sub-licences, for their own scientific research purposes, excluding commercial purposes and providing the Contractor agrees such use is not contrary to its Legitimate Commercial Interests.

6.3 Background Intellectual Property.

6.3.1 Background Intellectual Property - Definition

For the purpose of this Contract, "Background Intellectual Property" means all Intellectual Property, belonging to the Contractor or to a Third Party, which:

- a) has not been generated under contract with the Agency either prior to or during execution of this Contract, and
- b) is relevant to the Work carried out under this Contract, and
- c) the Contractor uses to achieve the objectives of this Contract, and
- d) is delivered to the Agency to enable it to use, operate, copy, distribute and sublicense the deliverable items due under this Contract as specified in the Agency's requirements, and
- e) is duly identified as such in this Contract.

Conversely, "Foreground Intellectual Property" means all Intellectual Property generated through Work carried out under, or directly or indirectly funded through, this Contract.

6.3.2 Use of Background Intellectual Property

[Option A]

The Agency acknowledges that the Contractor will use Background Intellectual Property to achieve the objectives of this Contract.

The price agreed for this Contract includes all the fees relative to access to and use of the said Background Intellectual Property, including, but not limited to, the right to sublicense, by the Agency, for the purposes set forth in this Contract.

Any deliverable documents and reports containing Background Intellectual Property shall consist of distinct, appropriately marked and separable parts or volumes in order to precisely identify and segregate the Background Intellectual Property itself.

The above-mentioned Background Intellectual Property is identified as follows:

Exact name of BIPR Item	Owner	Description	Patent # or Ref./ Issue/ Revision/Version #	Contract/ Funding Details under which the IPR was created	Date of creation of the version of the BIPR listed here	Type of Licence	Affected deliverable with comments	Protected Format (Y/N)

The Background Intellectual Property owned by the Contractor or a Third Party shall remain the property of the owner.

The following conditions shall apply to Background Intellectual Property which the Contractor delivers together with, or as part of, the deliverable items due under this Contract:

Any Background Intellectual Property the Contractor may decide to use (in order to achieve the objectives of this Contract) and/or to include in the deliverables shall be provided in a format making it readily decipherable, accessible and compatible with the licensing scheme of the deliverable software, and related documents, as envisaged in Article 6.2.2a) here above. The Contractor shall grant to the Agency, and/or ensure that the Agency be granted, all the necessary rights in this respect.

[End Option A]

[Option B]

The Contractor has confirmed that all results of this Contract (or any part thereof) shall be deemed and treated as not containing any Background Intellectual Property.

Nevertheless, should the Contractor unilaterally decide to use existing Intellectual Property to achieve the objectives of this Contract, all results of this Contract (or any part thereof) shall be

deemed and treated as Foreground Intellectual Property not containing any Background Intellectual Property. The Contractor shall grant to the Agency, and/or ensure that the Agency be granted, all the necessary rights in this respect.

[End Option B]

6.4 The free licences provided for the benefit of ESA

The free licences provided on Intellectual Property arising from Work performed under this Contract and/or Background Intellectual Property indicated in Article 6.3 for the benefit of ESA shall be deemed granted through signature of the present Contract and without the need to implement a separate licence.

6.5 Transfer outside the ESA Member States

Any transfer of Intellectual Property Rights or any product, process, application or result arising from Work performed under the Contract by the Contractor to any entity in a non-Member State or any international organisation shall comply with all applicable laws including all export control laws, regulations, rules and procedures and any relevant international agreements relating to the export of goods and services.

ARTICLE 7. MANAGEMENT AND CONTROL OF INVENTORY ITEMS/FIXED ASSETS UNDER THE CONTRACT

The following provisions apply to any items other than those items which fall within the scope of ARTICLE 2 of the Contract.

The Contractor shall specify, record, manage and control any and all customer items and ESA Fixed Assets under construction (reference is made to Article 3.1 above) that are subject to this Contract. Such items are:

- i. items produced or purchased under the Contract, including electronic components, special jigs, tools, test equipment, which are paid for under the Contract with an individual or batch value (value of group of items) in the national currency equivalent to or above five thousand (5,000) Euro;
- ii. if any, items identified as becoming ESA Fixed Assets in ARTICLE 3 above or in a subsequent CCN;
- iii. Customer Furnished Items and/or Items Made Available by the Agency, if any (see Article 5.5 of the Contract).

The Contractor shall operate an inventory control system ("Inventory Control System") of all the above-mentioned items and shall mark them as falling under this Article of the Contract.

The Inventory Control System shall:

- record the existence, location, operational status and condition of all inventory items, and
- record the value and estimated life duration of all inventory items, and
- record changes in inventory value, and
- enable financial reconciliation to be made and status reports to be prepared for incorporation of the relevant data into the Agency's annual financial accounts.

The Contractor shall, as part of the Inventory Control System, maintain an Inventory/Fixed Asset Record (in an electronic tool of its choice) which shall, as a minimum, contain the information as shown in **APPENDIX 3** to this Contract.

The Inventory/Fixed Asset Record shall be kept updated by the Contractor. It shall be made available to the Agency upon request but as a minimum yearly during the execution of the Contract (and at completion of each Project Phase as per ECSS-M-ST-10 if applicable). A final consolidated record shall be submitted with the final contractual deliverables as foreseen in **APPENDIX 1** to this Contract.

If the Inventory/Fixed Asset Record also includes any of those items which fall within the scope of ARTICLE 2 of the Contract, these items are to be clearly set apart.

Items, for which no place of delivery has been identified in ARTICLE 2 of this Contract, are subject to the following provisions:

Upon completion of the Work specified in the Contract, the Agency shall take decisions regarding the final destination and final ownership of each item listed in the Inventory/Fixed Asset Record. The Agency shall be free to choose amongst the following options with respect to the final destination and final ownership of such items:

- a) the right to claim delivery to the Agency and transfer of ownership (the latter if applicable) - with issue of appropriate instructions concerning packing and shipment (at the Contractor's expense);

- b) the right to claim or retain ownership and to negotiate with the Contractor a loan agreement if the Contractor is interested in keeping and using an item, with loan conditions making the Contractor responsible for the custody, the delayed delivery and the risks involved (at the Contractor's expenses).
- c) the right to extend the custody of an item to the Contractor and to postpone its delivery to the Agency and the associated transfer of ownership – on conditions to be negotiated;
- d) the renunciation of any rights to claim delivery and to claim transfer of ownership, leaving the item definitively in the possession and in the ownership of the Contractor, with or without financial compensation for the Agency (e.g., repurchase by the Contractor) and with or without special instruction,
- e) the right to request the Contractor to dispose of an item on conditions to be negotiated.

Should the Agency decide to transfer an ESA Fixed Asset to a Third Party or to dispose of the Fixed Asset, the Contractor shall provide the full inventory information of the Fixed Asset to the Agency and complete the transfer or disposal forms to be provided by the Agency upon request by the Contractor. The information to be given by the Contractor in the forms shall be agreed with the Agency.

The decisions taken by the Agency shall lead to instructions or negotiations, as the case may be, and the results shall be recorded in the relevant sections of the Contract Closure Documentation (CCD) as found in Annex A to **APPENDIX 1** to the Contract. The CCD shall not be finalised and signed before disposition of all items has been given by the Agency and recorded in the documentation.

- unique item number;
- confirmation that the item has been marked with the unique item number;
- description of item;
- part number/serial number/type code;
- quantity;
- system/subsystem;
- property owner;
- manufacturer;
- classification (category – see section 1.2 below);
- acquisition value (i.e. original purchase price or price at Contract signature as applicable);
- date of purchase or production (“in service date” if not corresponding with date of purchase/production);
- in-service date;
- foreseen useful life (to be agreed with ESA);
- physical location (e.g. facility, building, room);
- entity responsible for care and custody;
- related WBS code or other identifier (to be coordinated with the Agency);
- description and date of any change to the property item;
- planned method of disposal (if applicable).

In addition to the above, the following information shall be added to those items that are identified as becoming ESA Fixed Assets in Article 3 of the Contract, as applicable:

- Acquisition value
 - revision of this value as a result of change(s) to the asset;
- Impairment report of each ESA Fixed Asset remaining in the custody of the Contractor after its acceptance by ESA (using the template that will be provided by the Agency upon announcement by the Contractor that the item has been impaired);
- date of acceptance by ESA (planned date of acceptance);
- foreseen handling after ESA’s acceptance (e.g. transfer to ESA, continuing in custody of the Contractor).

1.2. Classification of Inventory/Fixed Assets items

For the purpose of Inventory/Fixed Asset Control, items shall be classified into five (5) categories, according to the source and intended use of the items, as follows:

Source/Purpose	Supplier-acquired Items	Customer-furnished Items
Consumable items (e.g. parts, materials, supplies)	Class 1	Class 2
Capital items/production support equipment and tools (e.g. instruments, jigs, fixtures)	Class 3	Class 4
Items purchased by the supplier or his lower tier suppliers on their own account but amortised under the Contract	Class 5	

Note 1: Consumable items are parts, materials, supplies, components, modules, minor expendable tools, assemblies, units and subsystems, which through the production process lose their identity and are absorbed directly or indirectly by the system/product to be provided under the Contract.

Note 2: Consumable items are in principle not capitalised per item; however, before consumption they are identified as assets of the Agency under the collective term “Consumable”.

Note 3: Capital items/production support equipment and tools are jigs, fixtures, devices, apparatus, instruments, machines, installations, technical facilities, buildings, computer programmes, documentation, models, samples or any other item, which, after their use in or in conjunction with the production process under the Contract, are expected to have a residual utility or other value for the Agency.

Note 4: Capital items have a useful life of more than one (1) year and are identified as individual items in the supplier’s and its lower tier suppliers’ list of Agency’s assets.
